DETAILED ACTION

1. This Office Action is a response to communication dated 09/01/04. Claims 1-22 are pending in the application.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1-22 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-18 of copending Application No. 09/271,011. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed invention of claims 1-22 of the instant application encompasses the claimed invention of claims 1-18 of the above copending patent application for the same rationales stated in the Office Action dated 07/30/2002.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

3. In the Remarks, page 5, of the outstanding response filed 09/01/04, pertaining the double patenting rejection of claims 1-22 as being unpatentable over claims 1-18 of copending Application No. 09/271,011, Applicants state "Applicants respectfully request that the terminal disclaimer be filed after the allowance of the pending claims".

Examiner's response to the above statement is a timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application, not a mere statement.

Applicant's arguments, see Remarks/Arguments, pages 5-7, filed 09/01/04, with respect to rejection of claims 1-22 under 35 U.S.C §102(e) and §103(a) have been fully considered and are persuasive. The art rejection of claims 1-22 has been withdrawn.
